THE LEGISLATURE.

SENATE.

The Senate met as usual. The Electric Railway Bill in its present shape was indefinitely postponed. A committee was voted to enquire into the general subject and present the same at the regular session of the Legislature—the committee not necessarily to include only members of the Legislature. Senators Waterhouse, Lyman and Baldwin were appointed members of the joint conference committee on the additional items inserted in the supplementary appropriation bill. A petition was presented asking to have Parker Lane on Liliha street put into proper condition as a road. The Senate adjourned.

HOUSE OF REPRESENTATIVES.

Minister Damon's answer to Rep. Richards in regard to the Lehua charter stated that the whole expense had been \$5926.96. That the date of beginning was May 9tb. That the boat had been under the control of the Customs' Bureau working in conjunction with the Attorney - General's Department. Rep. Ryeroft presented a joint resoution asking the Minister of Foreign Affairs to order the band to play appropriate music in the shape of Sunday concerts. Referred to the committee on Education.

That Country Police.

Another case of police abuse has came to our notice, and again the victim is a Chinaman. Last week we referred to the case of Ah Hoy, a respectable storekeeper in Kona, Hawaii, who was summarily arrested and looked up in jail for the night on the alieged charge of selling beer, when, under the circumstances, a penal summons would have sufficed to bring him to the bar of justice. We now refer to a case recently before the District Magistrate of Lahaina, Maui, where a native was arrested, tried and convicted of larceny, the subject of theft consisting of pieces of silver and gold coin, alleged to have been stolen from a foreigner. It appears that the native went to several stores to buy goods for his own use, and from the store of one Ah Tong he bought about \$15 worth of articles paying the storekeeper a \$20 gold piece, Ah Tong returning the necessary change. The storekeeper was subpoenaed as a witness for the prosecution and ordered to produce in Court the identical \$20 gold piece, which he obeyed. During the trial the storekeeper proved to the satisfaction of the Court that he did not | waii of the Monarch Cycle. We know the gold piece was stolen have realized that, not alone a 1st Class, money. After the trial a question arose between the District Magistrate and the Deputy Sheriff as to whom the money should be returned. The judge insisted it should be returned to the store keeper, it being the value of his goods and change which he had to make, but the deputy sheriff prevailed and ordered that the \$20 gold piece should be given to the foreigner from whom it was stolen. The fact remains however, that Ah Tong is minus not only his goods but also his own money which he used as change, and perhaps his reputation as a

Timely Topics.

Honolulu, July 22, 1895.

It cannot be denied that the war cloud which hangs over the world at present is getting darker and darker. It is a historical fact that the end of each century has always been fraught with bloodshed and strife, internally as well as externally. The great powers of Europe today are making and unmaking alliances of all kinds. The fact is that diplomacy to-day is using every means to postpone the day when the crash must come and gain time for the different countries to prepare themselves for the gigantic struggle which will and must take place before the present generation dates its letters in the year 1900. Turkey is threatened from all sides. The Russian bear is extending his claws and licking his bloodthirsty tongue towards the East and South in anticipation of gain. The passive and cold brother nations who inhabit the Scandinavian peninsula are now glaring ferociously ready to spring at each other's throats. Germany, under its impetuous, indiscreet imperial master, is drifting into the deceptive maelstrom of conquest, and war, in which all past experience, all knowledge gained through the horrors of war are forgotten, and where only false sentiment and sham patriotism are ruling.

And while the giants get ready for the great war their leaders have realized one thing, and that is, that no army will have a show, no militia a chance, except provided with the indispensable bicycle. And no wonder that the monarchial countries of Europe prefer the "Monarch" to any other kind, and supply their "wheeling cavalry"

with that favorite brand. We have watched proceedings in the great countries with a great deal of care, and we have secured the sole agency for Halarge stock is necessary, but that a workshop, in which all needed repairs can be done is in the interest of our patrons, and we have established one above our stores on Fort street. This "bicycle infirmary" will attend to any "sickness" which the wheel may meet through accident or lack of care. Our prices are far below veterinary figures. We fix the Monarchs sold by us at cost price if ever they should need it. We have everything on hand and have secured the services of a most experienced bicycle man, whose work we

guarantee. As the bicycle is not only of advantage in war but love, we wish to call the attention of the young boys and girls who have to spend their vacations in Honolulu, that we have wheels just suitable for them. If daddy can't send them to the country for a trip-or buy them a bow-wow-let them ask him for a Monarch. It will give more pleasure and last much longer than even a volcano trip.
